Young minds have room for bilingual learning.

Classes are structured to support daily use of the Spanish language. Students develop listening, speaking and writing skills useful in everyday life. We use a theme and game-based curriculum, engaging students through a variety of activities.

Online classes are held 2 days a week. Monday and Wednesday and/or Thursdays. Each meeting is 40 minutes. We believe short sessions, two days a week is ideal exposure to a foreign language, allowing for more fluency and progress recognition. These are group classes with a cap of 8 participants.

Give your child a jumpstart on the #1 foreign language used today!
